PROFESSIONAL SUMMARY

Passionate and creative Web Developer with knowledge of HTML, CSS, JavaScript, and responsive web design. Skilled in building modern and user-friendly portfolio websites and web applications. Interested in Frontend Development and AI-based projects with a focus on clean UI, performance, and problem-solving. Looking forward to growing as a Full-Stack Developer and creating impactful digital solutions.

PROJECTS

AI Image Classifier

Developed an AI-based image classification project that can identify and categorize images using machine learning concepts. Built a simple and responsive interface for uploading images and displaying prediction results.

Personal Portfolio Website

Created a responsive personal portfolio website using HTML, CSS, and JavaScript with modern UI design and smooth navigation.
